3/2015 - Present, Minneapolis, MN

JavaScript/PHP Developer, Grocery Shopping Network

I am currently improving and expanding the web products and services offered by this hosting, advertising and development company that operates solely within the grocery industry.

Ongoing, Saint Paul, MN

Independent Contractor

Before and after my time at Weber Shandwick, I performed work as a contractor for small agencies and maintained my own client roster. Most of my recent work has been front-end development and WordPress custom theme and plug-in development.

April 2005–November 2012, Minneapolis, MN

Web Development Supervisor, Weber Shandwick

As development lead, team member and working individually, I developed Facebook apps, custom AIR desktop applications, web-based Flash games, ColdFusion/MS SQL, and HTML websites and newsletters.

Education

B.S. in Philosophy and Religion
UNC-Wilmington, North Carolina

Personal

I enjoy brewing my own cider and making pickles and kimchee. I love the outdoors, and I keep cats and poison dart frogs as pets.
